

The YLAI Network is a dynamic community of 30,000+ young leaders across Latin America and the Caribbean. The Office of Public Engagement in the Bureau of International Information Programs (IIP) provides Network members with access to tools and resources that help develop their organization or enterprise. The IIP Network team works closely with WHA posts and the WHA regional bureau to engage YLAI Network members in online and offline activities around policy priorities to create positive change in their communities.

This calendar lists anticipated 2018 campaigns for continued engagement of the YLAI Network.
Please email ylai@state.gov if you're interested in creating programming around any of these campaigns.
